Livingstone College was founded as Zion Wesley Institute by a group of A.M.E. Zion ministers for the purpose of training ministers in the Cabarrus County town of Concord, North Carolina, in 1879.

After three brief sessions, directed by principals Bishop C.R. Harris and Professor A.S. Richardson, the Institute ultimately closed in Concord. In 1881, Dr. Joseph Charles Price and Bishop J.W. Hood changed their roles as delegates to the Ecumenical Conference and became fundraisers with the mission to re-establish Zion Wesley Institute.

The Rowan County town of Salisbury, just 20 miles northeast of Concord, gave the Trustees a generous donation of $1,000 and an invitation to relocate the school in Salisbury. They accepted both gifts, and the College reopened in Salisbury in 1882 with Dr. Price as President. The new site was J.M. Gray’s farm called Delta Grove, which consisted of one building and 40 acres of land.
Whether you’re facing a first assignment or final exams, we can help you gain valuable knowledge and confidence to become a successful college student. Livingstone College is committed to providing services to students that will support them in their academic endeavors. The gateway to the Success Center is the Central Access Base (CAB), which provides one-stop access to all support services on campus.

**THE HOLISTIC APPROACH**

The holistic approach to academic preparation is designed to create a learning environment to change attitudes and modify student behavior. Students who matriculate on the campus of Livingstone College will participate in a number of activities and programs, in addition to their academic preparation, educating them intellectually, morally, physically and spiritually – for the best possible path to a better future. Many factors are taken into consideration in the selection of a freshman class, and each candidate is viewed on an individual basis.

**LIVINGSTONE COLLEGE FACULTY**

The faculty is at the heart of every college. At Livingstone, you will find professors who are committed to excellence in learning. In addition to their exemplary educational preparation, many have real-world work experience in their fields. We have educational professors who have been teachers; chemistry professors who have been chemists; and business faculty who have held executive posts.
